

romance the rann

Historically, scientists believe that the Rann was once a part of the Arabian Sea. Even today, you can see remains of ports and a light house in villages like Jinjhwada, Khod and Tikar. Though the Little Rann is famous for its unique salt-pans where salt is harvested by the local tribes, it has so much more to offer than meets the eye.

This stretch of land is the sole home of the Wild Ass - a species hailing from the horse family with similar strength and grace. Other animals found are Neelgai, Chinkara, Black Buck, Indian Wolf, Jackals etc. It's also a bird watcher's paradise in the winter. An estimated 70-75 thousand bird's nests are present in around 250 acres consisting of Flamingoes, Houbara bustard, sand-grouses and the likes.

Zinjwada fort and sculptures in Jhilkeswar Temple from ancient Mor dynasty are some of the unique sights. Modhera temple and rani ki vav in patan are worth a visit too. Stay with us to experience all of this and more.

relax and rejuvenate

The exceptional and innovative restaurant procures, prepares and serves only the most nutritious food from our organic farm where guests share a spacious and sumptuous table. Comfort is primary with lovely rugs, cushions, galleries and artifacts that all add to the restful ambience.

Relish your choice of cuisines from Indian to Chinese, Gujarati and Tandoori meals. Also enjoy your favourite movies while dining in our open theatre at no extra cost. You can also take away fresh fruits and vegetables of your choice from our organic farm.

Our farm was built in an arid land by converting the same into cultivable land in order to create a tourist destination and a place of organic farming. Over 100 species of flora can be found here. We regularly allow farmers to visit the farm, learn new technologies and encourage organic farming in the area.
